Your comments:	<p>This flies in the face of our Carbon Zero commitments. It would be a travesty to allow more useless drilling and destruction of our environment.</p> <p>The environmental impact of this decision is wider than what it would simply cost in the local area. When the next major flood happens that floods and destroys the life's of residents of East Yorkshire will you be able to say you made the right choice here?</p> <p>The sweet promises of these companies will not pay for the environmental destruction that we will be left to deal with.</p> <p>No more drilling!!</p>
