Your comments:	<p>I object on the grounds of increased traffic causing noise and environmental pollution. From what I understand, the lorries will be day and night with no rest on Sundays or bank holidays and this will disturb my sleep and the peace and quiet of sitting in my garden or walking my dogs. This land could be used for nature and farmland which is far more valuable to our future. Also, what about climate change? The government is proposing switching to hydrogen boilers and electric vehicles, so is the production of oil going to be sustainable moving forward? Another concern is our health. People with asthma and COPD will be affected by the constant lorry diesel pollution that is kicked into the air. This is unfair when we are all trying to live healthy lives. How can we when things like this are forced upon us?</p>
