Your comments:	<p>I honestly have no idea how this Conservative council can pass this.</p> <p>I live in the area where Rathlin want to drill/explore. I am in the area that has no gas pumped directly to the village and we rely on oil and coal; these dirty fossil fuels that the government have been shouting and screaming about for the last few years. These fossil fuels are supposedly being phased out and rather rapidly if you are to believe the media.</p> <p>The Government are spending millions on incentivising villagers like myself who rely on oil to heat their homes to switch to new cleaner and renewable ways such as air source heat pumps. I have taken them up on the RHI scheme but have had to pay up front thousands and thousands of pounds to do so. However knowing that a few fields from my home they are exploring for oil feels like a massive smack in the face and not to mention the hypocrisy of it!!</p> <p>I plead with the local council to not see the pound signs and to ignore their greed and the attitude of 'it's not at my back door'. I urge them to think of the local environment and the families who are doing everything they can to reduce their carbon footprint for their children and their children's children's future and beyond.</p>
