<p><b>Your comments:</b></p>	<p>How can the East Riding of Yorkshire consider this application when they have just declared an Climate Emergency for this area.</p> <p>This is industrialising and destroying beautiful countryside in East Yorkshire.</p> <p>No provision has been made for HGV vehicles to travel backwards and forwards along these narrow country lanes, the roads are already in bad condition, and deteriorating with cambers on most of them. They will not withstand this type of use.</p> <p>This area provides routes for many walkers, horse riders and cyclists and crosses the Trans Pennine Trail, this will make crossing at New Ellerby extremely dangerous and life threatening.</p> <p>They are using dangerous chemicals to extract the oil and gas, is this not fracking????</p>
