<b>Your comments:</b>	<p>I urge the committee to reject this application.</p> <p>I welcome the Council making its Climate Emergency declaration, however actions speak louder than words.</p> <p>In order to prevent climate breakdown, fossil fuels have to be left in the ground. We all must take action to prevent global warming as individuals, however national and local government have more impact in the decisions they take. We cannot continue delaying change in the way we live.</p> <p>This is an important way of signalling that change.</p>
