Your comments:	<p>I am the grounds and parkland officer for Burton constable Foundation</p> <p>I have huge concerns over the traffic use from the Rathlin site the increase of traffic between both sites and the possibility of at least 20 tankers a day on these country roads damaging the roadside verges , the amount of school transport, farm traffic, horse riders cyclists, joggers and walkers as well as visitors to Burton Constable Hall, Surely with all the added transport from rathlin this could be a serious accident waiting to happen</p> <p>The road doesn't get gritted in the winter months I myself have turned out to many accidents on this road, this is on top of my other concerns of noise, light pollution and the environmental impact on the wildlife such as the lapwings, deer, and all other wildlife in the area and also the closure of public footpaths is detrimental to the enjoyment of walkers and ramblers on the country lanes , plus all the police resources being used for the protection on the rathlin site is reducing police resources in other areas</p> <p>Vehicles will get stuck and bogged down in wet conditions it will damage trees hedgerows and fencing and grass verges</p>
